

Humidifiers

Wine Cellar with Wine Guardian Humidifier. Courtesy: Vintage Cellars

Wine is your passion. Preserving it is ours.

Wine Guardian® humidifiers are uniquely designed to deliver superior performance and reliability, ensuring the proper conditions for your wine collection and cellar. Our humidifiers **regulate and control humidity** while offering the versatility to be **used with any brand** of wine cooling system.

Humidifier Features

- Monitors and controls humidity in the wine cellar
- Evaporative drip pad system with removable cover and cleanable pad for easy access and maintenance
- Commercial-grade & lightweight, all-aluminum components

Integrated Humidifier

Freestanding Humidifier

Integrated

- Uses Wine Guardian remote interface for control and readout; a separate controller is not needed
- Installs on either side of system for application flexibility
- Powered directly from Wine Guardian® unit; no separate power source required

Freestanding

- Can be used with any wine cellar cooling system
- Versatile placement: mounted through-the-wall, through-the-racking or on-the-wall with included mounting bracket for maximum flexibility
- Sleek, modern supply grille (Removable)

Made in the U.S.A.

Humidifiers

Other things to know about Wine Guardian® wine cellar humidifiers

- Uses Wine Guardian control system to sense & control the amount of moisture that needs to be added to the cellar
- Water supply and drain lines are conveniently located for ease of installation and service
- Wine Guardian humidifiers are designed for minimal maintenance. However, a regular maintenance program helps prolong the life of the humidifier and helps to maintain humidity in the cellar
